Subject: Decertification is Representatives RLA

To: <legal@nmb.gov>

This is a terrible attack in working families that you say you are helping. If a work group wants to change Union we should allow that not make them not Union completely. Not only that but if they do decide to decertify changing the amount of time to 2 years rather than 1 is garbage. Why should it be up to you to make these decisions? Let working people have a contract with their employer and stay out of it! Government overreach at it's finest
